## FASTJET'S LATE ROW NOSEDIVE

**FASTJET'S** share price nosedived yesterday as **EASYJET** founder **Sir Stelios Haji-ioannou** slammed it.

Sir Stelios' **EASYGROUP** business owns 12.3 per cent of the African airline.

He said the 2015 results were "at least two months later" than promised.

London-listed Fastjet made a £25million loss for the year to December 31. Shares closed 11.15 per cent down.

EasyGroup, led by Sir Stelios, *right*, wants Fastjet chairman Colin Child out and its base moved from Gatwick to Tanzania.
